# ABOUT US

About Us (<https://www.superiorpaintworks.com/about-us>)

Superior Paintworks was established in 2016 by Patrick Otts.

Patrick is a Bakersfield native, graduated from Foothill High School in 1994. For 10 years he

worked for various painting companies working his way up overseeing a Range of projects

from large apartment complexes, commercial and industrial projects, hundreds of interior and exterior repaints, cabinet painting refinishing, wrought iron gates and fencing, deck and fence staining, and furniture painting and refinishing. Superior Paintworks was created with the intention of providing a top notch service at a very competitive price.

A primary focus of Superior Paintworks is treating its customers with respect, integrity, and clear communication. The painting industry is full of contractors ranging from independent contractors to large scale companies and we fall right in the middle.

We are here to provide a professional service that you would expect from any large company, but with the customer service and support of a small company. Our prices are competitive and you can expect us to be less expensive than any larger companies, because we only do a

limited number of homes each year. You won't see our name all over town on buses, bus stops, or people shaking signs. We do most of our work through referrals and great customer service to keep our prices lower than the competition.

Look through our references section to see all of our happy customers! We hope to add you to our list of referrals and appreciate anyone you refer to us.
